

## **What is OASIS?**

### **A Note for Potential Families**

OASIS is the place where we allow your children **O**pportunities **A**fter-**S**chool for **I**ntellectual **S**uccess!

We are committed to providing your child with enriching and rewarding experiences that enhance their childhood memories about school and learning.

Our program has been developed to assist parents in providing their elementary school age children the opportunity to relax, study, and involve themselves in personal interests in a safe environment when they are not in school. Our program does not duplicate the school day program but rather supplements the program in a more recreational manner.

We recognize that working parents need to feel secure in the knowledge that their children are well cared for during times when they are not in school. We, as an extension of the family, provide a safe haven that is fun, nurturing, warm, clean, and caring.

Please feel free to read more about OASIS in our Parent Handbook. We look forward to meeting you!

Sincerely,

*Sha'Rona Smith*

OASIS Director
